## FOREWORD.

---

### SEVENTY-FIRST YEAR.

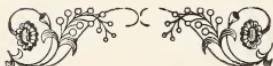

---

For over seventy years Bryant's Nurseries, of Princeton, Illinois, have grown and furnished their product to Nurserymen and Planters the country over and especially in the Middle West.

Our aim has always been to please and satisfy, and we take this opportunity to thank our many customers for this generous patronage in the past and to assure them that we will do all in our power to merit a continuance of their confidence.

If you are not already one of our customers, we ask for a trial order and we know that we can take care of it to your entire satisfaction.

PRINCETON, ILLINOIS, JANUARY 15th, 1916.

## TERMS AND CONDITIONS.

### SHIPPING.

We are located on the main line of the Chicago, Burlington & Quincy Railroad, 104 miles from Chicago. We also have direct connection with the Chicago, Rock Island & Pacific Railroad, via DePue, Illinois, over the Chicago, Ottawa and Peoria Railroad, an Interurban line and prompt handling of shipments can be made.

Two Express Companies, the Adams and Wells-Fargo, give an excellent service and patrons would confer a favor by stating which road or Express Company they would prefer.

Specific directions should be given as to whether you wish stock shipped by freight or express; also route. Where no instructions are given, we will ship as we think best serves your interests without assuming responsibility.

**The risk and cost of transportation belong to the purchaser.**

### TERMS

Usual terms to parties of known responsibility. We will not accept orders until we believe the buyer is good for the account. **Cash before shipment** from parties unknown to us.

### PRICES

We quote prices per 10, per 100 and per 1000, as our stock warrants and will supply nurserymen and dealers at prices named regardless of the size of the order, **except in cases of long assorted lists of small quantities when the price per plant will apply.**

### LIABILITY AND CLAIMS.

We are not liable for injury to stock from frost, hail, fire or other causes beyond our control, and book all orders with this understanding. While we use every means at our command to secure prompt delivery, we are not liable for delays in transit: **our responsibility ends upon delivery in good order to railway company.** Remedy for loss must lie between the buyer and the railway company, but we will gladly render all the aid we can. Any other claims must be made immediately, after receipt of stock.

### GUARANTEE OF GENUINENESS.

We exercise the greatest care to keep our varieties true to name, and we hold ourselves in readiness at all times to replace on proper proof all stock that may prove otherwise, or refund the amount paid; but it is mutually agreed that we shall not at any time be liable for any amount greater than the original cost of the goods.

### PACKING.

All orders for forwarding by freight or express, except in carload lots, are carefully packed in bales and boxes, **for which a charge is made** sufficient to remunerate for the cost of material and time.

### INSPECTION.

Our Nurseries are regularly inspected by the State Entomologist's office and Certificates of Inspection will accompany each shipment.

(Prices are net—Cost of packing will be added.)

## COPY.

**OFFICE OF THE ILLINOIS STATE ENTOMOLOGIST.**

No. 29.

URBANA, ILL., SEPTEMBER 1, 1915,

This is to certify that the growing nursery stock and premises of ARTHUR BRYANT & SON, situated at Princeton, Illinois, have been inspected by J. H. Gage, a duly appointed inspector of this office, according to the provisions of an "Act to prevent the introduction and spread in Illinois of the San Jose Scale and other dangerous insects and contagious diseases of fruits," in force, as amended July 1, 1909, and that said nursery and premises are apparently free from the San Jose Scale and other dangerous insects and dangerous plant diseases.

This certificate applies only to the condition of this nursery for the year ending August 18, 1916.

P. A. GLENN,  
Chief Inspector.

STEPHEN A. FORBES,  
State Entomologist.

**FRUIT DEPARTMENT.****APPLE.**

We have never had nicer blocks of thrifty, smooth, well-rooted trees. Try them. They cannot fail to please. If you can use apple in car lots write us for special terms. We have both budded and grafted trees.

	Per 10	Per 100	Per 1000

King, (red)	.40	1.00	7.00
St. Regis, Everbearing	.75	1.50	10.00
Strawberry-Raspberry	.50	2.00	

## SCARFF RASPBERRY OR IMPROVED GREGG.

The introducer says of it:

"This valuable new black cap was introduced (under the name of Improved Gregg) last spring to the wholesale trade, for the first time. We have changed the name to "Scarff" by request of many of our customers to avoid confusion that might arise between this and the old variety of Gregg. We give the following brief description and hope you will try it.

"In size it compares with Cumberland, possibly a trifle larger. In productiveness it is far ahead of any Black Caps we grow. It is absolutely hardy. Canes free from disease and strong upright growers. The canes are cleaner by far than any raspberry we have ever seen and we think it will stand heat and drought better. It makes an abundance of good strong canes."

We have several thousand tip plants of our own growing to offer for Spring of 1916. As the price is low, every grower should try them.

	Per 25	Per 100	Per 1000
Scarff Raspberry, Strong No. 1	\$1.00	\$2.00	\$15.00

## BLACKBERRIES.

	Per 25	Per 100	Per 1000

## ORNAMENTAL DEPARTMENT.

We make a specialty of Ornamentals and at all times have an immense stock. We have had an exceptional growing season and everything in the ornamental line promises to be extra fine. We are sure that we are offering our customers one of the best assortments of prime stock that it has ever been our privilege to grow. Our prices are low and you will find our stock is young, thrifty, and first class in every way. If wanted in quantity, write us. Prices given are for the quantities specified, but five will be furnished at the ten rate and twenty-five at the one hundred rate. Less than five of a sort will always be charged at the single rate.

For the convenience of our customers we have changed our listing of ornamental trees and shrubs, giving both the botanical and common name.

**FERN LEAVED SUMAC—(Rhus Typhina Var. Lacinata.)**

This remarkable variety of our native stag-horn sumac was found on the hills of Vermont. It has the same rapid, robust growth of the common sumac, producing the same showy cones of bright red fruit, the leaves are so beautifully formed that they rival the most delicate fern in their intricacy. For massing with other effective foliage shrubs the effect is very striking. It can also be cut to the ground each season if desired and a mass of the most beautiful foliage will result. This shrub will thrive on the poorest of soils with a surprising luxuriance. This season we have a fine lot of both one and two year old plants. We can furnish them by the thousand at a very low figure,

Fern Leaved Sumac, 6 to 12 in.	.....	\$ .05	\$ .30	\$ 1.50
